

Guiding Principles of Data Reporting and Data sharing for the Global Monitoring of the SDG

*Angela Me Co-chair CCSA
Chief Research and Trend Analysis Branch
UNODC*

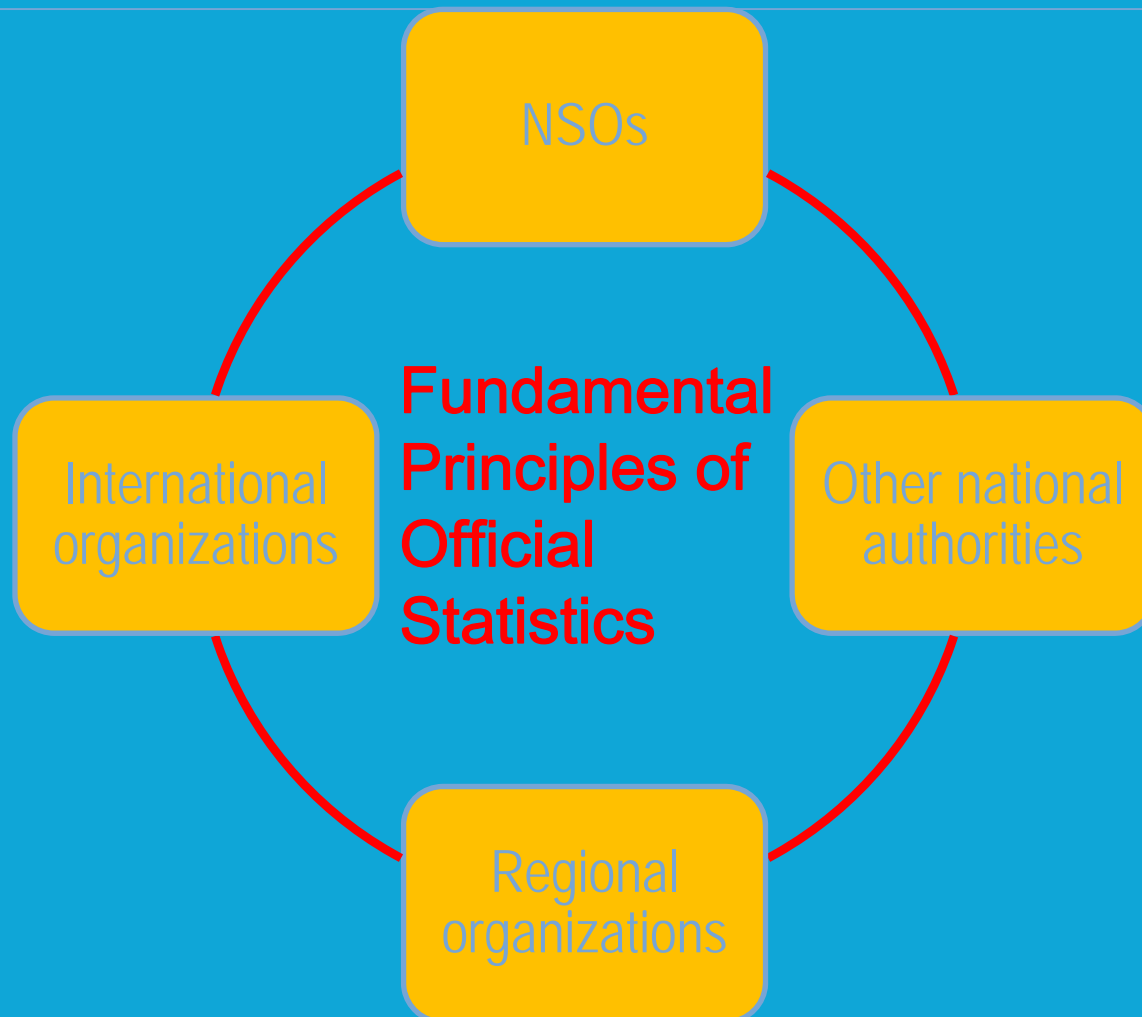

The statistical role of ISSA

- Mandated by ISSA bodies (national authorities, most of them do not include representatives from NSSs)
 - Define what and how
 - Define the allocation of resources
- ISSA respond to their national authorities users who require
 - Comparability
 - Quality
 - Coverage
 - Relevance

ISSAs follow the same criteria used by NSOs

- Strong ethical guidelines (Fundamental Principles of Official statistics and Principles for International Statistics)
- Quality assurance frameworks (comparability, transparency, accuracy, ..)
- Management of non-response and imputation when feasible and needed
- Use non-official sources when official sources do not exist
- Use cost-effective methods and methods that fit the purpose

A partnership for SDG monitoring

CCSA Principles as accountability framework for ISSAs

CCSA members Commit to

- Provide technical assistance to countries
- Use national official data in all cases where NSOs produce estimates provided they meet quality criteria for SDG indicator
- ISSAs adjustments or estimates with:
 - Documentation
 - Technical consultation
 - Review by NSO

CCSA members Commit to

- Minimize burden of reporting
 - Using existing mechanisms
 - Promote use of data transmission standards
 - Data sharing across ISSAs
- Involve NSO: copy in data requests and provide NSO with list of national providers
- No duplication of data collections by ISSAs
- Consistency with SDG global database
- Transparency: proper metadata

In case international data are a source of concern, CCSA members Commit to

- Resolve the disagreement: discuss within the framework of the Fundamental Principles of Official Statistics and Principles for International Statistics considering:
 - National ownership
 - Comparability and transparency
- If the disagreement can not be resolved
 - Be transparent: acknowledge the difference and provide explanations
