

Statistical Staff Training Institute (SSTI)

Statistical Staff Training Institute (SSTI) is one of the useful and important service wings of Bangladesh Bureau of Statistics (BBS) which is located on the 7th floor of the BBS Bhaban. It was established through a development project of BBS in July 1992 and started its normal activities in a rented house in Dhaka having hostel facilities for both male and female. After completion of the project regular program with structured guidelines started from 2011 for BBS officials by providing training opportunities in SSTI under the guidance of Director General, BBS and Secretary, Statistics and Information Division (SID). SSTI runs various short courses on Modern office Management, Human Resource Development & Management, GDP compilation, Computer Basic/Special Course, Public Procurement Course, Data collection and Analysis Course, Basic Statistical course, Government System and Essential laws and different methods of census and survey to fulfill Government of Bangladesh (GOB) vision 2021.

Vision :Statistical Staff Training Institute (SSTI) aims to become a Centre of excellence for developing patriotic, competent and professional officials of BBS dedicated to public interest.

Mission:We are committed to achieve the shared vision through

- (1) Developing competent and professional human resources in BBS by imparting quality training.
- (2) Conducting training courses in SSTI and nominating the BBS officials in other training institutes for continuous improvement and developing organizational capacity.
- (3) Arranging the special training courses to foster knowledge based data management system.
