ACKNOWLEDGMENT

Household Income and Expenditure Survey (HIES) is one of the most common welfare measurement surveys globally. Bangladesh Bureau of Statistics (BBS) has conducted the seventeenth round of HIES In 2022. The Key Findings and the Preliminary Report of HIES 2022 have been published in April 2023 and in June 2023 respectively. There are no detailed tables in those reports. As a result, we have prepared a separate report title '*Detailed Tables of HIES 2022*' based on the various important indicators that captured in HIES 2022 in addition to the '*Final Report: HIES 2022*'.

I express my gratefulness to the honourable minister, ministry of planning, honourable minister of state, ministry of planning and the respected secretary, SID for their wholehearted support to HIES 2022. Also, my sincere thanks to the DG, BBS, additional secretary (dev.), SID, DDG, BBS, joint secretary (dev.), SID and all respected officials of SID and BBS for their valuable contributions. I acknowledge the necessary technical supports to HIES 2022 by the poverty & equity GP team of the World Bank.

I am indebted to my HIES 2022 team members and two local poverty consultants for their continuous efforts to bringing out all the reports of HIES 2022 within the stipulated timeline of APA.

I believe that this '*Detailed Tables of HIES 2022*' will be extremely helpful to the researchers and to the policy makers as well who are keen to explore the deeper insights of poverty and its correlates.

Mohiuddin Ahmed MPH
