# Current Human Resource Setup

Way of accomplishing wing activities

# Current ICT Setup

# Future plan to accomplish wing activities using ICT

## **Development of ICT infrastructure**

- High configuration Laptop & Desktop (15+15=30 nos)
- Networking Supported Printer (15 nos)
- Projector set for wing meeting/conference room (1set)
- Microsoft Office for wing computers (50 users)
- STATA Software (Version 18 for 15 users)
- Section-wise PC networking with Central server
- Improve internet connectivity (Router, hub, switch etc.)
- Photocopier (3 nos)

## **Development of Macroeconomic Dashboard**

- Development of Dashboard to visualize Macroeconomic Indicators (including Time series data)
- Establishing a permanent setup to update the Dashboard regularly

# Future plan to accomplish wing activities using ICT

## **Automation of Price and Wages Statistics**

- Introducing mobile responsive web application for Data Collection
- Logistic Support for Automation (Software, Devices, Servers and related equipment)
- Capacity building training for using Data collection apps (both for HQ & Field)

## **Automation of Expenditure Based GDP Compilation**

- Development of Mobile responsive web Application for Local Government Budget Data Collection
- Establishing a Software and Hardware set up for Local Government Budget Data Collection using web and mobile app (Server and Network)
- Capacity building training for using Data collection apps (both for HQ & Field)

# Future plan to accomplish wing activities using ICT

- Update the existing compilation system e.g., Statistical yearbook and pocketbook of Bangladesh.
